### Introduction

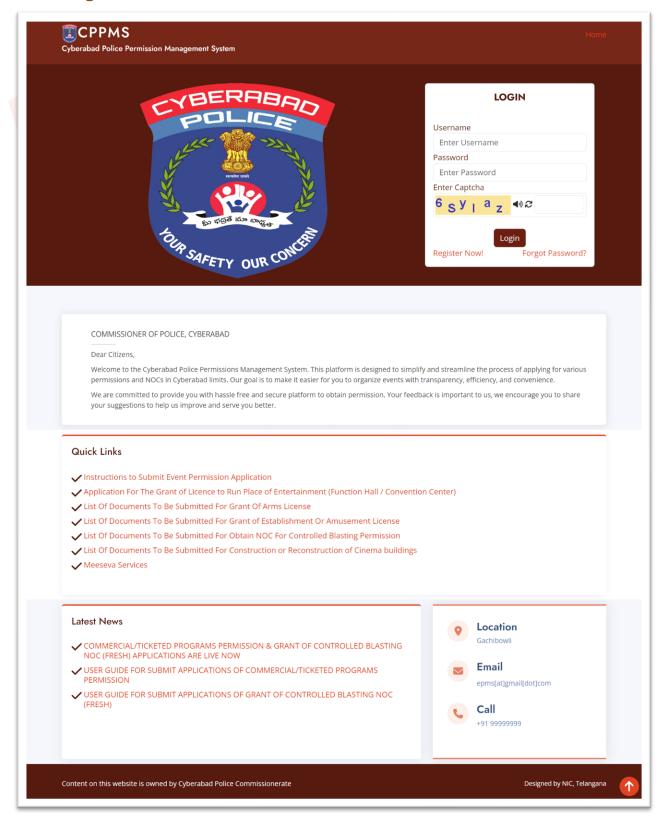

The **Cyberabad Police Permission Management System**, oversees numerous permissions for events organized by individuals and organizations, requiring careful coordination and management. To improve efficiency, the department has recognized the need to **digitize and streamline the event permission process**.

The proposed solution is to develop an Online Permissions Management System. This system will:

- Simplify the process of requesting, approving, and managing event permissions within the Cyberabad jurisdiction.
- Provide secure access to information about all permissions granted by the department. This
  digital system will enable better management, faster approvals, and a more organized approach
  to event permissions.

Click on Apply for Permissions

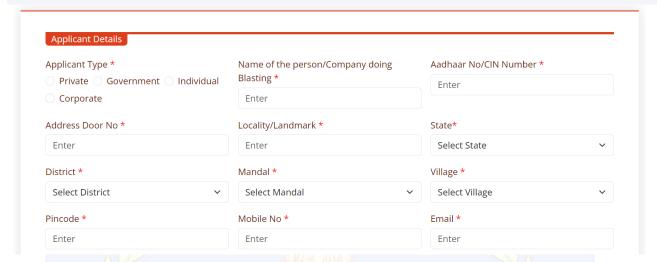

Select Blasting Permission form and submit it.

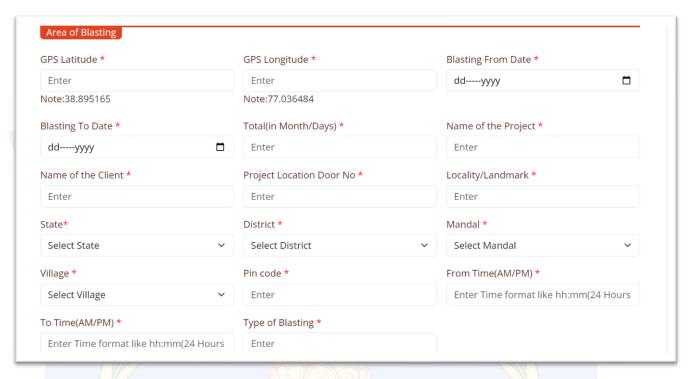

#### Grant of Controlled Blasting NOC

- 1. **Applicant Type:** The user must select one of the following options: Private, Government, Individual, or Corporate.
- 2. Name of the person/Company doing Blasting: The name of the individual or company responsible for blasting activities.
- 3. Aadhaar No/CIN Number: The Aadhaar number or Corporate Identification Number (CIN) of the applicant.
- 4. Address Door No: The door number of the applicant's address.
- 5. Locality/Landmark: The locality or any nearby landmarks of the applicant's address.
- 6. **State:** The state where the applicant's address is located.
- 7. **District:** The district where the applicant's address is located.
- 8. Mandal: The mandal (administrative division) where the applicant's address is located.
- 9. Village: The village where the applicant's address is located.
- 10. Pincode: The postal code of the applicant's address.
- 11. Mobile No: The applicant's mobile phone number.
- 12. Email: The applicant's email address.

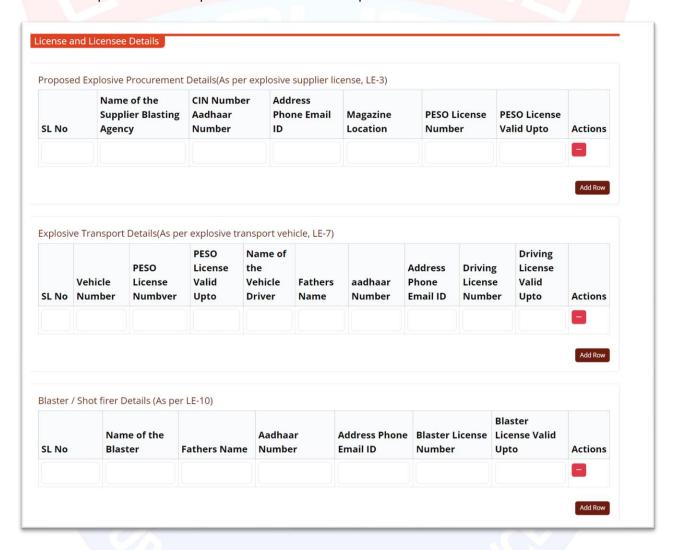

- 1. The image shows an online form for blasting activities. The form requires the following information:
- 2. **GPS Latitude:** The latitude coordinates of the blasting area.
- 3. **GPS Longitude:** The longitude coordinates of the blasting area.
- 4. Blasting From Date: The start date of the blasting activity.
- 5. **Blasting To Date:** The end date of the blasting activity.
- 6. Total (in Month/Days): The total duration of the blasting activity in months and days.
- 7. Name of the Project: The name of the project where the blasting will take place.
- 8. Name of the Client: The name of the client who has requested the blasting.
- 9. **Project Location Door No:** The door number of the project location.
- 10. Locality/Landmark: The locality or any nearby landmarks of the project location.
- 11. **State:** The state where the project location is located.
- 12. **District:** The district where the project location is located.
- 13. Mandal: The mandal (administrative division) where the project location is located.
- 14. Village: The village where the project location is located.
- 15. Pin code: The postal code of the project location.
- 16. From Time (AM/PM): The start time of the blasting activity.
- 17. To Time (AM/PM): The end time of the blasting activity.
- 18. Type of Blasting: The type of blasting activity being conducted.

The user is required to select a police station from the dropdown list

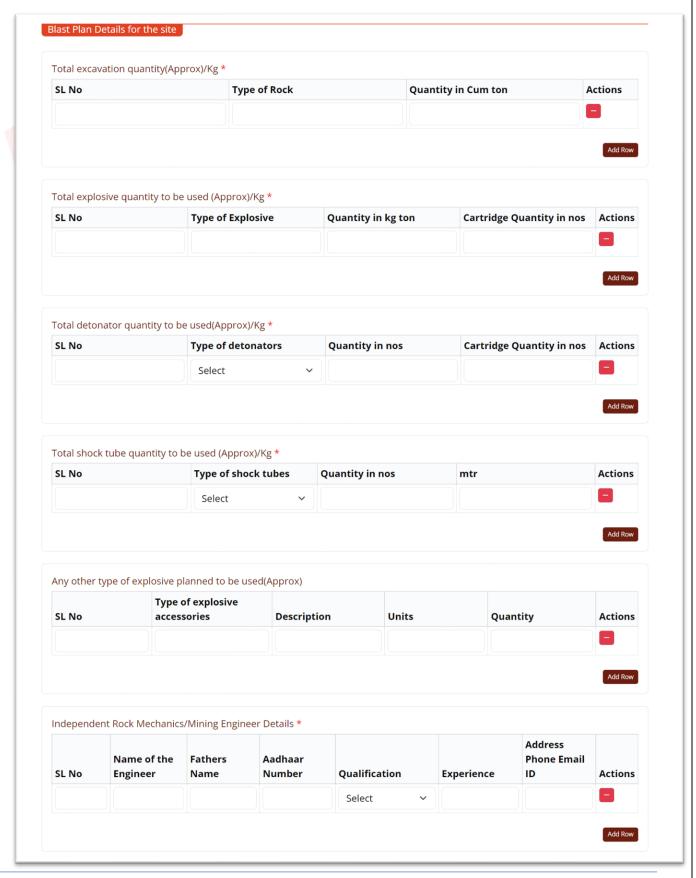

- 1. **License and Licensee Details:** This section collects information about the supplier blasting agency, including their name, CIN number, address, phone number, email ID, magazine location, PESO license number, and license validity.
- Explosive Transport Details: This section collects information about the vehicle used for transporting explosives, including the vehicle number, PESO license number, license validity, driver's name, father's name, address, phone number, email ID, driving license number, and license validity.
- 3. **Blaster / Shot Firer Details:** This section collects information about the person responsible for blasting, including their name, father's name, Aadhaar number, address, phone number, email ID, blaster license number, and license validity.

Each section has a table where users can add multiple rows of data. There is also an "Add Row" button in each section to allow users to add more entries.

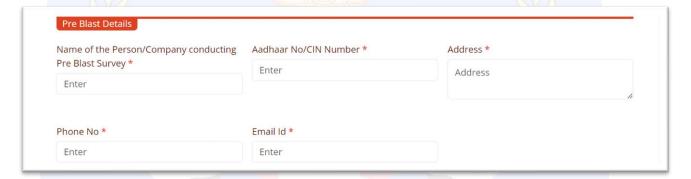

The image shows an online form for blasting plan details. It consists of multiple sections that collect information about the explosives, detonators, shock tubes, and other accessories that will be used for the blasting activity.

- **1. Blast Plan Details:** This section requires the total excavation quantity in kilograms and the type of rock to be excavated.
- **2. Total explosive quantity to be used:** This section requires the type of explosive, quantity in kilograms, and cartridge quantity in numbers.
- **3. Total detonator quantity to be used:** This section requires the type of detonator, quantity in numbers, and cartridge quantity in numbers.
- **4. Total shock tube quantity to be used:** This section requires the type of shock tube, quantity in numbers, and length in meters.
- **5.** Any other type of explosive planned to be used: This section allows users to add any other type of explosive accessories that will be used, along with their description, units, and quantity.
- **6. Independent Rock Mechanics/Mining Engineer Details:** This section requires information about the engineer responsible for the blasting activity, including their name, father's name, Aadhaar number, qualification, experience, address, phone number, and email ID.

The image shows an online form for pre-blast details. The form requires the following information:

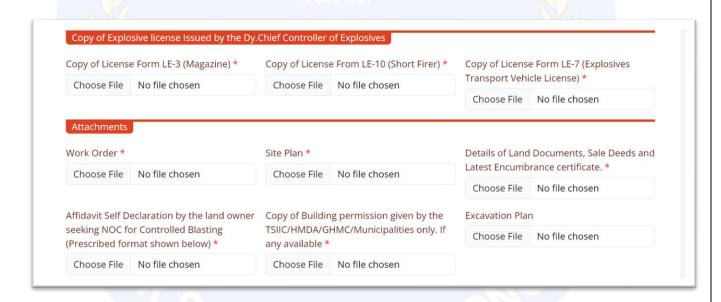

- 1. Name of the Person/Company conducting PreBlast Survey: The name of the individual or company responsible for conducting the pre-blast survey.
- 2. **Aadhaar No/CIN Number:** The Aadhaar number or Corporate Identification Number (CIN) of the person or company conducting the survey.
- 3. Address: The address of the person or company conducting the survey.
- 4. **Phone No:** The phone number of the person or company conducting the survey.
- 5. **Email Id:** The email address of the person or company conducting the survey.

This is used to collect information about the planned ground vibration and noise monitoring activities for a project. By entering the required details, users can create a record of the monitoring locations, instruments used, and their calibration status.

- 1. **SL No:** Serial number of the monitoring location.
- 2. **Proposed Locations:** The proposed locations for ground vibration and noise monitoring.
- 3. **Proposed Instruments:** The proposed instruments to be used for monitoring.
- 4. Instrument Serial Number: The serial number of the instrument.
- Manufacturer: The manufacturer of the instrument.
- 6. **Date of Calibration:** The date of the last calibration of the instrument.

#### 1. Explosive Licenses:

- Copy of Explosive license issued by the Dy.Chief Controller of Explosives
- Copy of License Form LE-3 (Magazine)
- Copy of License From LE-10 (Short Firer)

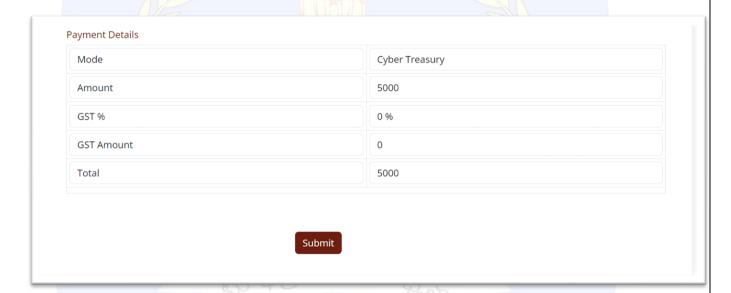

• Copy of License Form LE-7 (Explosives Transport Vehicle License)

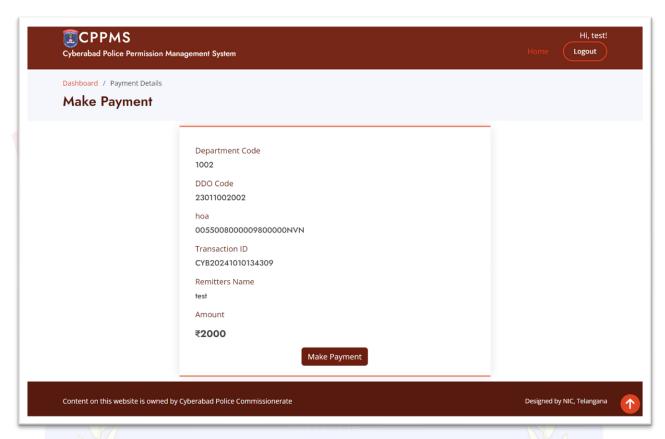

#### 2. Attachments:

- Work Order
- Site Plan
- Details of Land Documents, Sale Deeds and Latest Encumbrance certificate
- Affidavit Self Declaration by the land owner seeking NOC for Controlled Blasting (Prescribed format shown below)
- Copy of Building permission given by the TSIIC/HMDA/GHMC/Municipalities only (if available)
- Excavation Plan

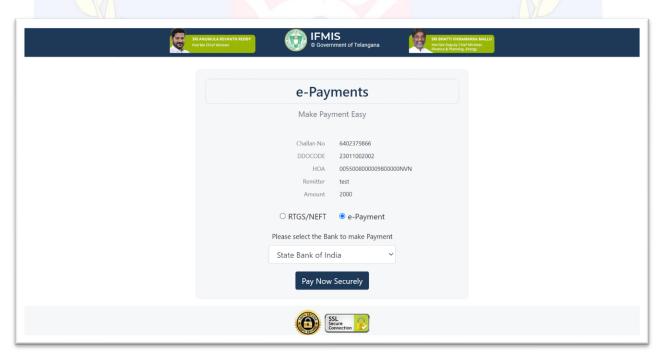

The image shows a payment form where users can check payment details. The form includes fields for payment mode (presumably Cyber Treasury), amount, GST percentage, GST amount, and a total amount.

Click on Make Payment to continue

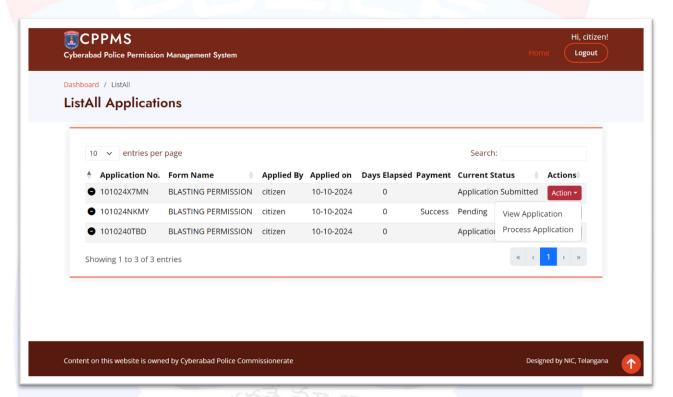

Complete the payment for further process.

#### **Application Enhancement**

- The submitted application can be edited, feedback can be provided, or the application can be canceled.
- To do so, follow these steps:
- Click on "List of Applications" to view the number of applications.
- A dashboard displaying form names and application counts will appear. Click on "Commercial/Ticketed Programs."
- A table will be displayed

- Click on the Actions button at your application number.
- From the dropdown click View application.
- Data entered form appears.
- At the end of the form, you can see:

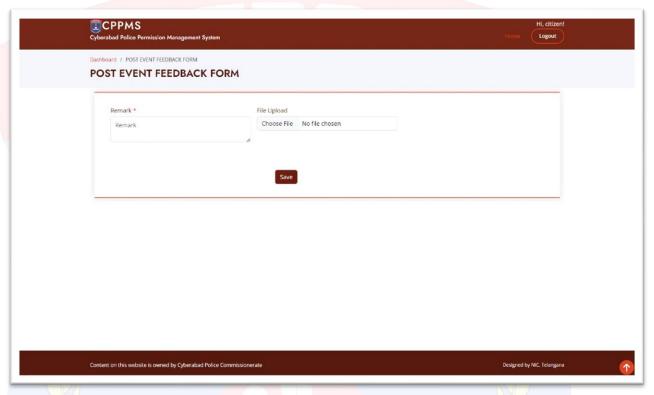

• Select the Form name.

### Field Officer Feedback

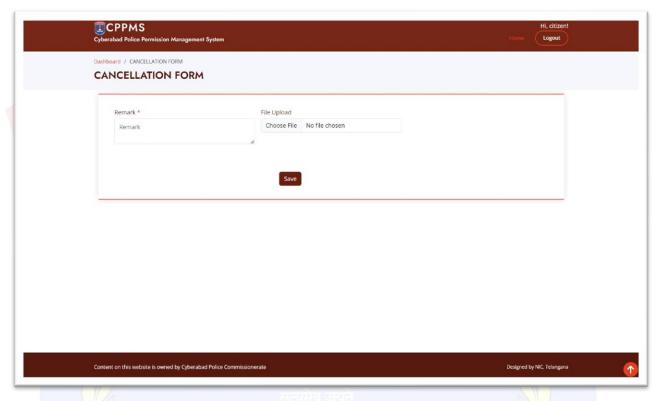

• The form is designed to collect post-event feedback from field officers. Field officers are required to provide their remarks and attach any relevant files.

#### Cancellation Form

This form is designed for users to submit cancellation requests for a permission.
